

# ABOUT THE BIOCHARGER

The BioCharger NG is a platform that simultaneously transmits 4 types of natural energies that serve to invigorate your body and mind while optimizing your potential health, wellness and athletic performance. It is completely non-invasive, and has proven to restore strength, stamina, energy, and mental clarity. Think of it as a human recharging station!

The unprecedented technology incorporated into the BioCharger represents more than 25 years of research, development, and validation that builds upon more than 80 years of documented research by internationally acclaimed scientists and early energy healing pioneers such as Nikola Tesla, Georges Lakhovsky and Royal Rife. Jim Girard, the inventor of the BioCharger, was privileged to work with a Tesla protégé who educated him in legacy technologies. The BioCharger NG was created by converging these legacy technologies with the cutting edge technologies of today, resulting in a system that incorporates cloud infrastructure and regular software updates, making it the only system that actually increases in capability over time.

The BioCharger library contains hundreds of frequency recipes that are written specifically to sharpen the mind, reduce stiffness in joints, accelerate muscle and injury recovery, promote restful sleep, and improve energy levels in a natural and sustainable way. A typical session is 10-15 minutes in length, and up to six people can sit comfortably around the BioCharger to enjoy the energy campfire together!

# THE ENERGIES

The Energies used in the BioCharger are **Light, Frequencies & Harmonics, Pulsed Electromagnetic Fields, and Voltage.** Have you ever stopped to question what evokes the feelings of relaxation and wellness after spending time on the beach or hiking in the woods? The answer is more than just fresh air and sunshine. The answer lies in these energies, and with the BioCharger you are able to bring these energies indoors.

# THE SCIENCE

## LIGHT

Not the light of a lightbulb or the Sun - but naturally occurring element gases vibrating at the speed of light including Argon, Xenon, Krypton, Neon, Helium and Mercury - produce the Light component of the BioCharger.

## FREQUENCIES & HARMONICS

Harmonics & Frequencies found in nature are produced by the 100-lightning-strikes-per-second occurring consistently within our atmosphere. These millions of discharges per day are brought indoors using the BioCharger.

## PULSED ELECTROMAGNETIC FIELDS (PEMFs)

For the same reason individuals practice "Earthing" or "Grounding" - which suggests that when the body is grounded, its electrical potential becomes equalized with the Earth's electrical potential through a transfer of electrons from the Earth to the body; the BioCharger allows for the transfer of electrons without leaving the house.

## VOLTAGE

Just as lightning storms produce Frequencies & Harmonics; they also provide the Voltage that cells crave.

## THE EFFECTS ON THE BODY'S CELLS

Think of the cell like a car battery; if the ports to the battery are corroded or disconnected, the battery will not function at optimal levels.

The BioCharger assists the cells in forming new connections that are free from corrosion - to allow for proper functioning of the cell in tandem with the body's own regeneration.

# THE COMMUNITY

## CONSIDERING THE BIOCHARGER? YOU'RE IN GREAT COMPANY.

The BioCharger has found its way into the homes and business of Athletes, Wellness Practitioners, Fitness Centers and our dear friend Tony Robbins, to name a few.

When you join the BioCharger community, you're teaming up with an ever-growing group of likeminded individuals in constant search for that competitive edge, optimized wellness and peak performance.

Through continuous communication by e-mail, blogs, social media and videos, the BioCharger team keeps our clients up-to-date with our evolving myCloud Recipe Library, complementary modalities, and tips and tricks we've learned along the way.

Join us! You'll be glad you did.
